

# PROFESSIONAL GRADE

DEAD BLOW HAMMERS

CANADIAN  
MADE

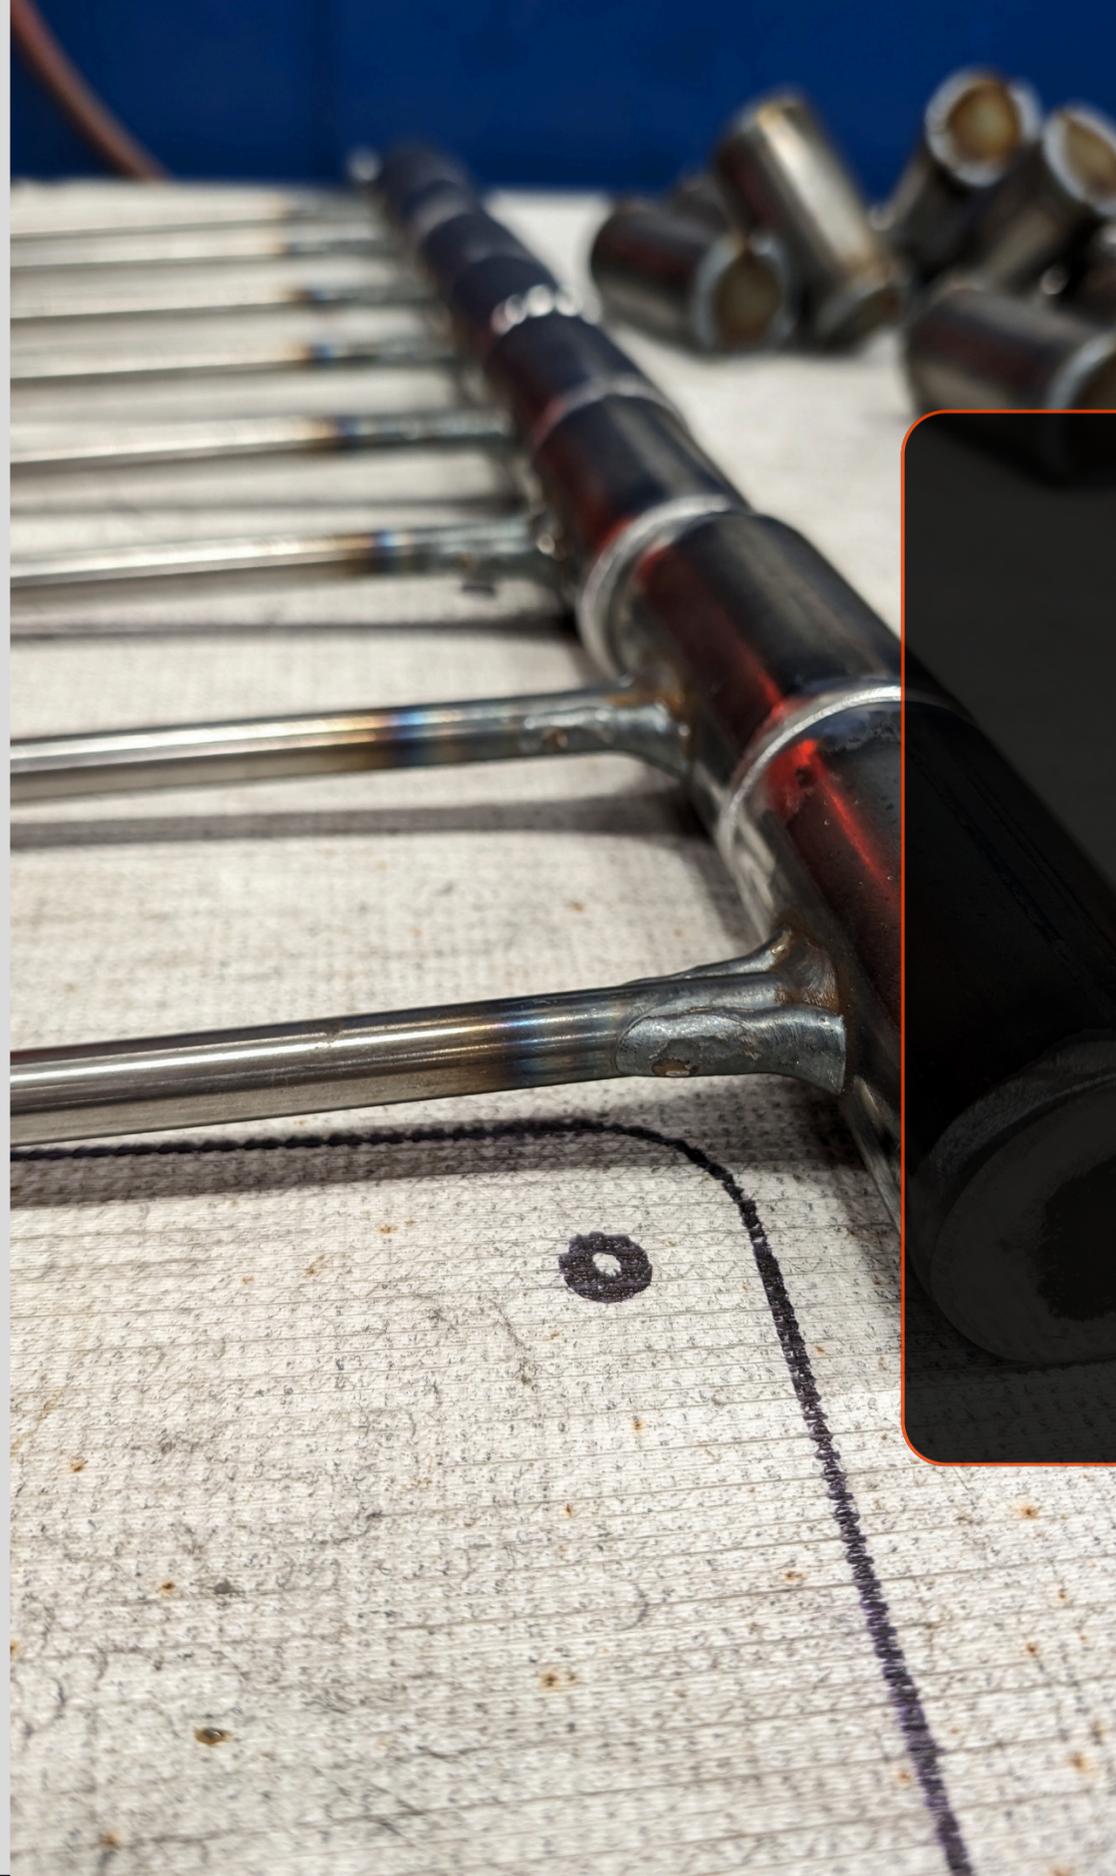

————— Jared Madsen —————

# VISION

Make a professional grade product

## SINCE 1997

Impact Poly Hammers started in 1997 by a machinist who was tired of his tools failing. Taking apart what what on the market to determine how to improve the week points - Impact Poly Hammers was born.

## WHAT IS A DEAD BLOW?

- Originally machinists and mechanics tool
- Minimize rebound and vibration
- Increasing precision and control
- Reducing damage to parts
  
- Hollow head filled with steel shot
- Shot absorbs the excess energy reducing “bounce-back”
- Force transferred efficiently
- Won't damage struck surface.

Power and Control

# DEAD BLOW HAMMERS

# BECAUSE **SAFETY** MATTERS

- Non - Sparking
- Non-Marring
- Reduced vibration through user
- Reduce unintended recoil injuries
