Metalworking Fluids

INTRODUCING

Q-PEN 40 Inhibitor / Penetrating Agent / Lubricant

Q-PEN 40 is specially formulated as a combination inhibitor, penetrating oil and lubricant for a wide variety of applications. It also functions as a powerful cleaning solvent for parts that are sprayed or dipped in the material. Q-PEN 40 penetrates and lubricates moving parts such as wheels, hinges, gears and chains and will also function to loosen and free stuck parts such as nuts, bolts, valves and locks. Application Q-PEN 40 can be sprayed, used in a dip tank or brushed onto the surfaces to be protected.
