#### Product Ranges & Details

**Drill Diameters**  
.4724" - 2.000" (D12.0 - 50.8mm)

**Drill Bodies**  
2xD  
3xD  
4xD  
5xD

**Grades**  
IN2505  
IN6505  
IN1030  
IN2510  
IN10K

**Features**  
Coolant thru - twisted flute for maximum chip evacuation  
Thru hardened bodies  
Side coolant port

### Features and Benefits

- Diameter range .4724" - 2.000" (D12.0 - 50.8mm)
- Twisted-flute, coolant-thru body design for maximum chip evacuation
- True 4 cutting edge, indexable inserts
- Excellent performance in a wide range of materials
- Grade **IN2505** (PVD) - General Purpose  
First choice for general applications  
Inboard and outboard pockets
- Grade **IN2510** (PVD) - Cast Iron  
Inboard and outboard pockets
- Grade **IN6505** (CVD) - Steel  
Outboard pocket only
- Grade **IN1030** (PVD) - Aluminum, Cast Iron, S.S., Titanium  
Tough, slower speed applications  
If inboard chipping is an issue, IN1030 can tolerate slow SFM  
More forgiving when machine rigidity is an issue
- Grade **IN10K** (Uncoated) - Aluminum, Non-Ferrous  
Upsharp, high rake angle  
High Polish to eliminate chips adhering

IN2505 (PVD) - GENERAL PURPOSE

IN2510 (PVD) - CAST IRON

IN6505 (CVD) - STEEL APPLICATION

IN1030 (PVD) - C.I., ALU, STAINLS, TITANIUM

IN10K (UNCOATED) - ALUMINUM

### SPECIAL PRICING

Customers are realizing tremendous performance from these drills.

## HIH CARBIDE

### EXCLUSIVE TO PRO CUT

## HIH-CARBIDE Indexable Machining Inserts

Introducing HIH-CARBIDE indexable machining inserts. We are having great success with many chip breakers and grades of indexable inserts BUT... the Laydown Threading inserts are moving the needle! Carbon steel, Stainless steel or high strength/high temp alloys, HIH-CARBIDE laydown threading inserts are outperforming global brands. 2X- 7X edge life, chip control improvements.

## 2023 Fall News & Promotions

### CHAMPION DRILLS SPECIAL PRICING

Pro Cut is a proud distributor of Champion's premium drills. Until the end of December we're offering our customers special pricing on jobber and mechanic style drills. Call us today and quote promo code PROCHAMP to receive your special pricing

### DORMER PRAMET

#### Pramet T9415 - Our most advanced steel turning grade verified by customers.

A new generation of turning grade has been launched, offering one of the highest levels of productivity and versatility in the market today.

The Pramet T9415 is the most advanced MT-CVD grade launched by Dormer Pramet in almost ten years. This fourth-generation grade covers a broad application range, replacing the previous T9310 and T9315. In addition, it also partly overlaps with grade T9325, giving T9415 one of the widest range of applications in steel turning.

With a 30% thicker coating than the previous generation, the Pramet T9415 significantly improves tool durability by increasing resistance to wear and offers higher productivity by allowing for higher cutting speeds. Several testing users of the new grade have reported that their productivity has doubled while machining carbon and structural steels.

### STRATUS ST4 END MILLS

Ty-Carb STRATUS 4 Flute End Mills are a high performance line of carbide end mills that customers are realizing significant performance improvements vs other end mills.

STRATUS End Mills feature Differential Flute spacing, Variable Flute design, Eccentric Relief for improved edge strength, Tapered core for added stability, Next Generation AlCrN PVD coating, Post Process treatment after coating, Premium Micro-grain carbide substrate, Variable Helix design to combat vibration and chatter, Designed to Slot at 1 x D

Also available in 5 and 7 flute

**PRICING WITH PERFORMANCE THAT CANNOT BE MATCHED!**
